Bhadrakali , Hooghly , Uttarpara – 712232

Profile

Recent **B.Tech graduate in Computer Science (2025)** from **Hooghly Engineering And Technology College**, with a strong foundation in **Data Structures & Algorithms (DSA)**, **Object-Oriented Programming**, and **problem-solving**. Hands-on experience in **full-stack web development**, including building **responsive, scalable, and user-friendly web applications** using modern technologies. A **detail-oriented and motivated software engineer** seeking an entry-level role to contribute technical skills, collaborate in agile development environments, and continuously learn emerging technologies.

Education

- **Bachelor of Technology (B.Tech) in Computer Science and Engineering**
Hooghly Engineering And Technology College [2021 – 2025]
CGPA: 7.69 / 10 (73.06%)
- **Higher Secondary Education (ISC – Class XII)**
Pearls of God School, Hindmotor [2021]
Percentage: 87%
- **Secondary Education (ICSE – Class X)**
Pearls of God School, Hindmotor [2019]
Percentage: 78.8%

Technical Skills

Programming Languages:

Java, JavaScript, SQL

Web Technologies:

HTML5, CSS3, React.js, WordPress

Databases:

MongoDB, SQL (MySQL)

Data Structures & Algorithms:

Arrays, Linked Lists, Stacks, Queues, Trees, Graphs,
Recursion, Searching & Sorting

Development Concepts:

Object-Oriented Programming (OOP), Client–Server
Architecture

Soft Skills

- Critical Thinking and Analytical Problem-Solving
- Teamwork and Cross-Functional Collaboration
- Effective Verbal and Written Communication
- Adaptability and Continuous Learning
- Time Management and Task Prioritization

Experience

Cybersecurity Intern

Globsync Business School

[May 2023 – August 2023]

- Gained hands-on exposure to **cybersecurity fundamentals**, including basic network security concepts and common vulnerabilities.
- Assisted in understanding **threat analysis, risk assessment**, and security best practices.
- Supported documentation and analysis of security-related workflows and compliance guidelines.

Web Developer Intern

CodSoft

[October 2025 – December 2025]

- Developed and enhanced **responsive web pages** using **HTML, CSS, JavaScript**, and **React.js**.
- Implemented **client-side authentication and form validation** to improve user experience and data integrity.
- Collaborated with team members to debug issues and optimize front-end performance.

Projects

Brain Tumor Detection and Classification

[Python, Machine Learning, OpenCV, NumPy]

🔗 GitHub: <https://github.com/krishnendu-bhattacharya/Brain-Tumor-Detection-And-Classification>

- Developed a **machine learning–based medical image analysis system** for detecting and classifying brain tumors from MRI scans.
- Implemented **image preprocessing techniques** including grayscale conversion, noise reduction, segmentation, and feature extraction to improve data quality.
- Utilized **OpenCV and NumPy** to enhance image clarity, enabling better feature representation for model training.
- Improved overall **model accuracy and reliability** by optimizing preprocessing pipelines.

JobSeeker – Full-Stack Job Portal Application [MongoDB, Express.js, React.js, Node.js (MERN)]

🔗 GitHub: <https://github.com/krishnendu-bhattacharya/codesoft-internship/tree/main/Portal/frontend>

- Designed and developed a **full-stack job portal web application** using the **MERN stack**.
- Implemented **user authentication and authorization** for job seekers and recruiters.
- Enabled recruiters to **post, update, and manage job listings**, while allowing job seekers to **search and apply for jobs**.
- Built a **responsive and dynamic user interface** using **React.js** for improved user experience.
- Developed **RESTful APIs** using **Node.js and Express.js** to handle backend operations.
- Integrated **MongoDB** for efficient storage and retrieval of user profiles, job postings, and applications.
- Ensured **secure data flow, input validation, and proper error handling** across the application.
